1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Travis Dodd on September 26, 2006.

Claim 1, line 32, --, including a plurality of clips that each includes an integral metal piece having first and second portions bent around a foldline; and wherein each of the clips is mounted on an electrode tab with the clip first portion attached to a front face of the tab and the second portion attached to a rear face of the tab such that the first portion and the second portion each serve as one of the metal reinforcing strips-- is placed after "column".

Claim 2 is cancelled.

2. The following is an examiner's statement of reasons for allowance: the above amendment to claim 1 were made because the present specification only supports each of the tabs having the clip on both the front side and the rear side of each tab and so the limitations of claim 2 were combined with claim 1 to recite such.
